MANAGEMENT TEAM

River Road Asset Management, LLC is an institutional asset management firm based in Louisville, KY, specializing in value-oriented equity investment strategies. As of June 30, 2025, the firm manages more than \$10 billion in total assets (including \$8.1 billion in assets under management (as defined by GIPS®) and \$1.9 billion in advisory-only assets). River Road serves leading institutional investors worldwide, including corporations, endowments, government entities, OCIOs, foundations, family offices, and retirement plan sponsors. The firm provides solutions to meet client-specific guidelines through a variety of investment vehicles, including separate accounts, model portfolios, collective investment trusts, and sub-advised U.S. and non-U.S. mutual funds. River Road is majority-owned by Affiliated Managers Group, Inc. For more information, please visit www.riverroadam.com.

Over 35,000 financial advisors have chosen CI Investments as a partner. We believe that Canadians have the best opportunity for investments success by using the services of a professional financial advisor. [Learn more at ci.com](https://www.ci.com).

¹ Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The indicated rates of return are the historical annual compounded total returns (net of fees and expenses payable by the fund) including changes in security value and reinvestment of all dividends/distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently, and past performance may not be repeated.

² The risk level of a fund has been determined in accordance with a standardized risk classification methodology in National Instrument 81-102, that is based on the fund's historical volatility as measured by the 10-year standard deviation of the fund's returns. Where a fund has offered securities to the public for less than 10 years, the standardized methodology requires that the standard deviation of a reference mutual fund or index that reasonably approximates the fund's standard deviation be used to determine the fund's risk rating. Please note that historical performance may not be indicative of future returns and a fund's historical volatility may not be indicative of future volatility.

³ Please refer to the fund's simplified prospectus for distribution information.

⁵ Portfolio allocations will fluctuate over the life of the mutual fund as the portfolio holdings and market value of each security changes. The portfolio manager(s) may change the portfolio allocations in some or all of the sectors.

The contents are not to be used or construed as investment advice or as an endorsement or recommendation of any entity of security discussed.
